# Geometry Worksheet

1. Calculate the area of a circle with radius 3 millimeters. Round your answer to 2 decimal places.

2. Calculate the area of a circle with radius 3 centimeters. Round your answer to 2 decimal places.

3. Calculate the circumference of a circle with radius 4 feet. Round your answer to 2 decimal places.

4. Calculate the circumference of a circle with radius 6 millimeters. Round your answer to 2 decimal places.

5. Calculate the area of a square with side length 1 meter.

6. Calculate the area of a square with side length 2 millimeters.

7. Calculate the perimeter of a square with side length 9 meters.

8. Calculate the perimeter of a square with side length 3 millimeters.

9. Calculate the area of a triangle with base 2 feet and height 7 feet.

10. Calculate the area of a triangle with base 3 feet and height 3 feet.

11. Calculate the volume of a cube with side length 3 feet.

12. Calculate the volume of a cube with side length 5 millimeters.

13. Calculate the surface area of a cube with side length 3 feet.

14. Calculate the surface area of a cube with side length 13 inches.

15. Calculate the volume of a cylinder with radius 1 foot and height 2 feet. Round your answer to 2 decimal places.

16. Calculate the volume of a cylinder with radius 7 centimeters and height 4 centimeters. Round your answer to 2 decimal places.

17. Calculate the surface area of a cylinder with radius 2 inches and height 4 inches. Round your answer to 2 decimal places.

18. Calculate the surface area of a cylinder with radius 2 millimeters and height 9 millimeters. Round your answer to 2 decimal places.

19. Calculate the volume of a sphere with radius 8 millimeters. Round your answer to 2 decimal places.

20. Calculate the volume of a sphere with radius 6 feet. Round your answer to 2 decimal places.
